3. Monteras i samband med styrstång vars kulle har tunggöngö. Förekommer på ett antal vagnar inom svenska marknaden.  
Installed in conjunction with a steering rod of which the ball joint has inch threading. Only appears on a number of vehicles running on the Swedish market.  
Est monté lors de barre de direction où la rotule est filetée en pouces. Existe sur un certain nombre de véhicules vendus sur le marché suédois.  
Wird in Verbindung mit Lenkstange, die Zollgewinde besitzt, eingebaut. Nur bei einigen Wagen auf dem schwedischen Markt vorhanden.  
Se monta en combinación con la barra de dirección cuya rótula tiene rosca en pulgadas. Existe en una cierta cantidad de vehículos dentro del mercado sueco.

1. P120 ch-225049,

P130 ch-216949.

2. P120 ch 225050-.

P130 ch 216950-.

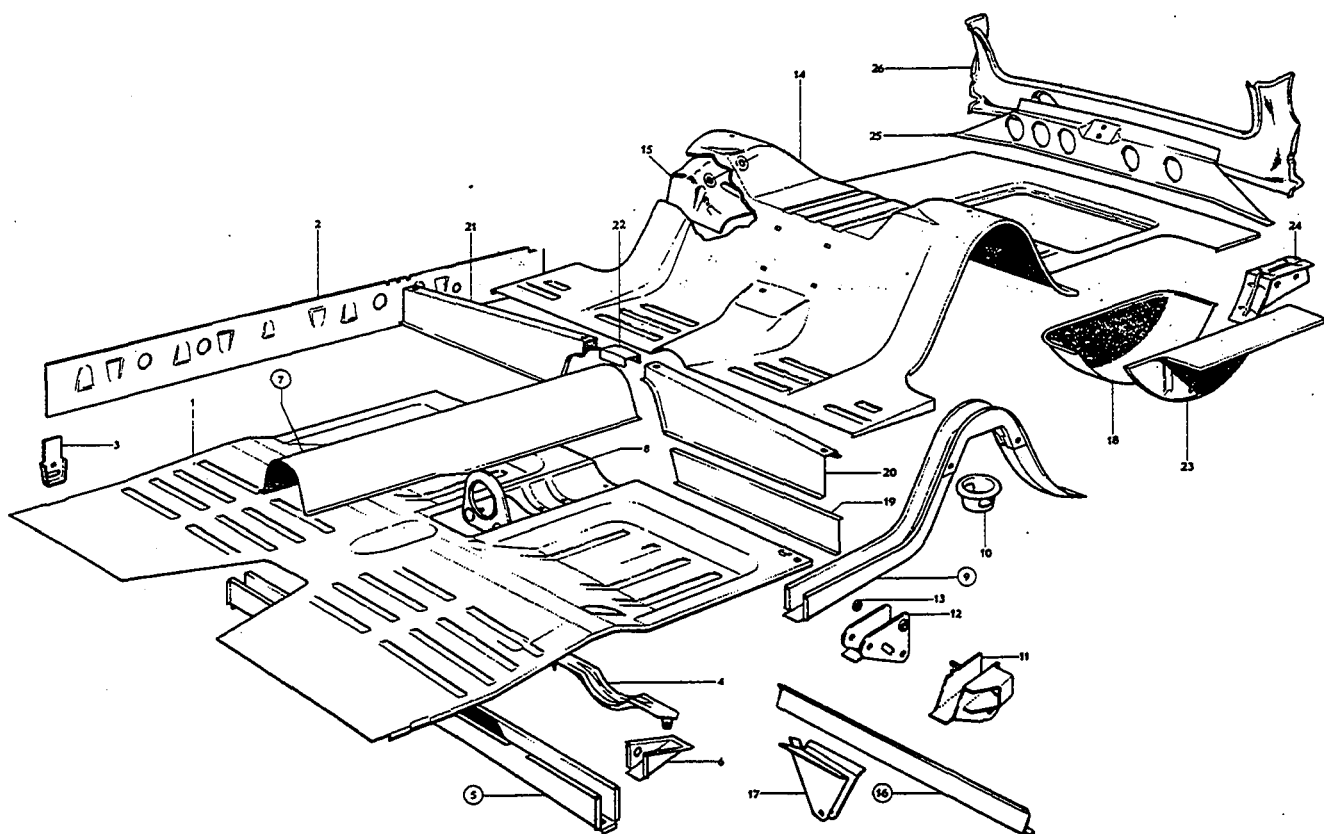

3. Levereras med konsoler pos 12. Vid byte av bakre golv eller sidobalk på P120 ch-225049, P130 ch-216949, demonteras konsolema. Därefter monteras fäste V och H, pos 11. Supplied together with brackets Fig. 12. These brackets must be removed when replacing the rear flooring on side member on P120 ch-225049, P130 ch-216949. Anchorages L and R, Fig 11, are then attached.

Livré avec support, pos 12. Lors de remplacement de plancher arrière ou longeron latéral sur P120 ch-225049, P130 ch-216949, les supports sont démontés. Après quoi sont montées les attaches gauches et droites, pos 11.

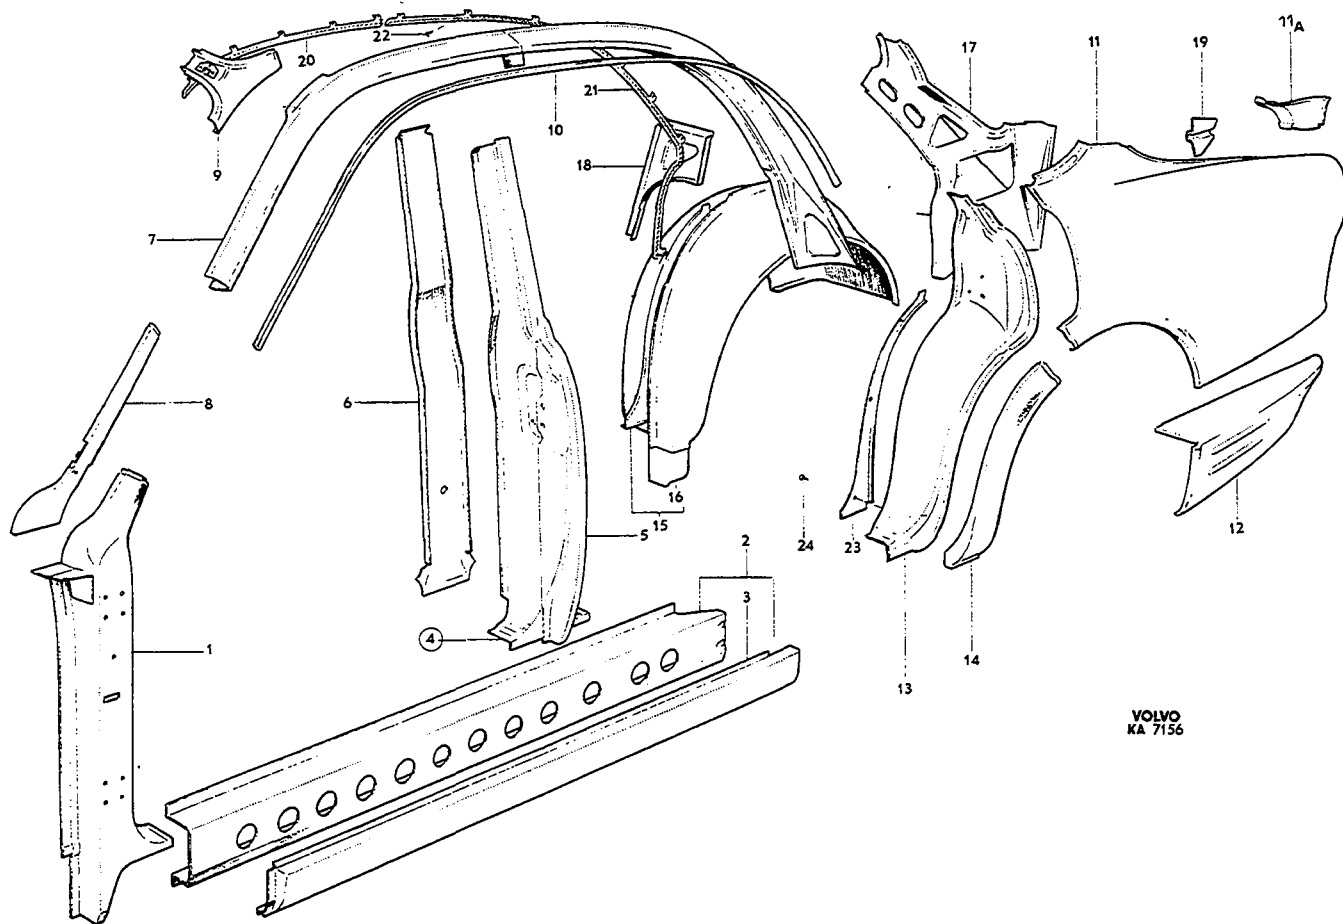

Werden mit Konsolen Pos. 12 geliefert. Beim Austausch von hinterem Boden oder Seitenbalken am P120 ch-225049, P130 ch-216949, werden die Konsolen ausgebaut. Danach werden Befestigung V (links) oder H (rechts), Pos 11 eingebaut.

Se suministra con soportes pos 12. Al cambiarse el piso posterior o el larguero en el P120 ch-225049, P130 ch-216949, desmontar los soportes. Luego se monta el soporte izq. y der., pos. 11

                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                   | Antal<br>Qty.
